

## SOLAR FIRE DYNAMIC INTERPRETATIONS REPORT

### **TRANSITS: Transits to Natal Interpretations**

These interpretations have been written to apply to transits to a geocentric tropical natal chart using a quadrant-based house system.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of what is happening to the individual whose transits are being interpreted, as people do experience conflicting desires, events and circumstances in their lives. It is the responsibility of the astrologer to synthesise these apparent contradictions in order to present a cohesive and realistic interpretation of the dilemmas of the chart.

Australian astrologer Stephanie Johnson has written the text in this report. Stephanie holds a Bachelor of Arts (Journalism) and was a journalist in Australia, England and the USA for 15 years before becoming a professional astrologer. She is currently a consulting astrologer, is Company Director of Esoteric Technologies Pty Ltd in Adelaide, Australia and Editor of the Australian Data Collection. She holds the FAA Practitioners' qualification and was a former editor of the Journal of the Federation of Australian Astrologers. Stephanie has also completed the Robert Zoller Certificate in Medieval Astrology. Keywords relating to transits of inner planets have been extracted from Bruce Scofield's DAILY ASTRO REPORT keyword text, by permission of Astrolabe Inc.

This transit is known in astrology as the "Saturn Return" and occurs approximately every 29 years. The planet Saturn has done a full cycle of your chart and returned to its natal position. The first Saturn return, at approximately 29-years-old, is one of the most important times of your life. You are leaving behind childhood and reviewing your life through new, more mature eyes. During this time your past comes under close scrutiny. You are being forced, whether you like it or not, to face life with a new maturity.

This time marks a separation process, during which anything that no longer supports your life purpose is being broken down and remoulded, or discarded. This paves the way for new responsibilities to be shouldered as you move into the next cycle. The type of responsibility will be affected by the house placement and rulership of Saturn.

The second Saturn return, around the age of 58, also forces you to face up to your responsibilities. The effects of this second return will vary, depending on how successfully you handled your first return.

Even if religions have never before seemed inviting, you may now start to ponder the meaning of life and explore different religious avenues. You may be tempted to go on some sort of spiritual quest. However, one of the problems with this transit can be that you are seeing everything through rose-tinted glasses. In other words you may be vulnerable to the charlatans of the world as you are extraordinarily sensitive during this transit. You may also feel the urge to take on some charity work. While this can be a beneficial act, you need to beware of wasting your energy on people who do not want to be helped, but would prefer to remain victims of society. Also beware of being lured into the world of addiction through drugs of any kind. You would do better to explore spiritual pursuits, metaphysical subjects, or latent artistic talents without entering schemes that could have long-term ramifications.
